

Opel Insignia Model year: 2012 With electronically controlled air conditioning

Temperature control

The above vehicles can experience problems with the air conditioning system temperature control. This means that the pre-set temperature inside the vehicle cannot be achieved or maintained.

Affected vehicles have the following chassis numbers:
C1000001 to C1067795

To fix this problem, the vehicle manufacturer provided an available software update.

Vehicles from chassis number: W0LGM6EL7C1067796
already have the factory updated software.
